**Subject:** Re: Heads Up - AK Steel Monitoring Results - Where are Results?

Katie and I discussed this on Friday. I had urged earlier last week that we get Ohio the data quickly, appropriately caveated. Then I didn't hear more on the issue until Friday, when Katie mentioned the issue to me and agreed we should get it to Ohio, but wanted to do a last check with Carolyn at the lab. Katie told me that there's very little reason to think the data will be much different than what we expect it to be, so I'm not sure where the resistance to giving it to the state came from.

There shouldn't have been a delay between my weighing in last week and resolution of the issue, even if it meant raising it to you. The message from Hodanbosi could have been prevented.

Ed,

I think Katie was working on this. See attached.

Sara,

I will need a response for Bob.

Thanks

Hello Ed,

I wanted to give you an heads up about the AK Steel monitoring results that are still in your shop. My Commissioner has asked why we cannot obtain the values that you have measured? We told him that they are still being reviewed and are not ready to be released, but he is still asking why we cannot have them in draft form.

The reason that this is an issue is that I was called by the Ohio Department of Health who was contacted by ATSDR, Region V a couple of weeks ago with the claim that Ohio EPA was "hiding data" from US EPA/ATSDR. Over the course of the last couple of weeks we have supplied the information to US EPA Region V on several occasions promptly, usually, the next day or even the same day that we have received the data. I am sure that you can understand why we would be sensitive when we are accused of "hiding data", yet, it is weeks before we can obtain any written documentation of your results. ( Your staff did provide us with some results over the phone).

I wanted to ask you to try to expediate the finalization of results and to let you know that my Commissioner is pushing me also.

Thanks.

Bob
